MotiveWave Software Releases Version 1.3 with Elliott Wave Scanner

TORONTO, ON – December 9, 2011 – MotiveWave Software, an up-and-coming provider of charting, analysis and trading software, announced today the release of Version 1.3 of its MotiveWave charting and trading platform, which includes an Elliott Wave Scanner and an Elliott Wave Auto Analyze feature.

MotiveWave is a general charting, analysis and trading platform that also specializes in Elliott Wave, Fibonacci, Gann and Gartley trading strategies. With Version 1.3, MotiveWave's already advanced Elliott Wave tools have been taken to the next level. Here's an overview of the new Elliott Wave features:

- MotiveWave's Elliott Wave Auto Analyze feature allows users to have Elliott Wave patterns automatically plotted and decomposed on a chart over a given range of data based on criteria chosen by the user.

- The MotiveWave Elliott Wave Scanner allows users to scan for Elliott Wave patterns across multiple symbols/instruments based on criteria chosen by the user and have the Elliott Wave patterns automatically plotted and decomposed.

MotiveWave's Version 1.3 also includes the ability to Import Data files in CSV format, the ability to create custom trading hours, as well as many enhancements to existing features and the addition of more supported data feeds and brokers.

"We always look for ways to make analysis and trading with MotiveWave as fast and as easy as possible for our users. We've made some great advancements in Version 1.3 and have many more planned in the near future," said Tony Lindsay, Founder of MotiveWave Software.

MotiveWave can be used to trade any securities that your broker or data service supports. These may include stocks, futures, options, equities and forex.
